DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Hori (US 5,237,371).
3. Hori (...371) discloses a toner separation apparatus comprising: a target (9) and an inlet (figure 3) through which toner laden carrier enters the apparatus and can strike the target (col. 4, lines 20-35; and figure 3); an exit through which detoned carrier passes (figure 3); and an exit through which separated toner passes (figure 3). A carrier reservoir is in fluid communication with the carrier exit (figure 2) and a toner reservoir is in fluid communication with the toner exit (figure 2).

Allowable Subject Matter

4. Claims 1-6, 14-16, 19 and 20 are allowed.
5. Claims 8-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Prior Art

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Brennan (US 3,572,501), Seimiya et al. (US 3,623,453), Whited (US 3,799,113), Knott (US 4,500,194) and Knott et al. (US 4,511,639) disclose separating toner from carrier.
